

ACCESSIBLE CARE TO EVERYONE

DOXTRAL

PROBLEM

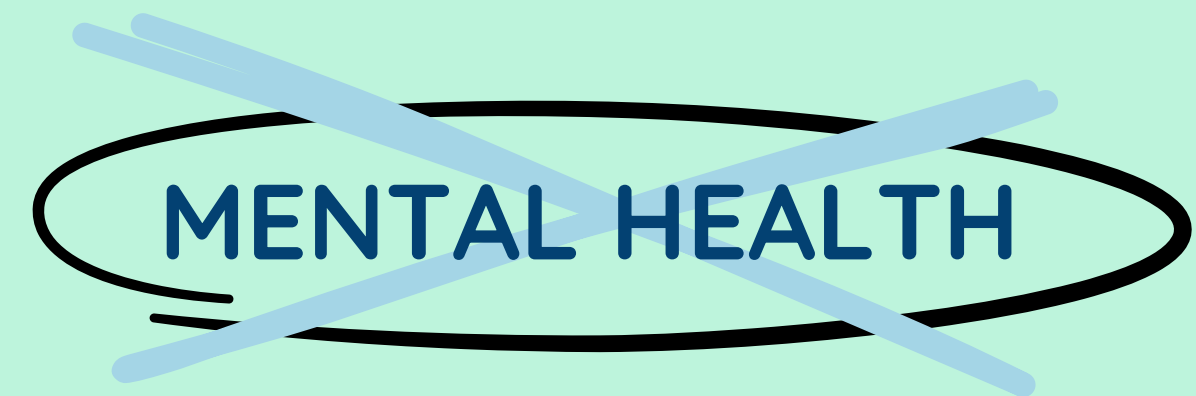

433 000 new cases of cancer p/y
3000 cancer specialists

6min per patient/month!

Lots of questions, no one to reassure them

Patient left to **themselves**

misleading infos on the net

SOLUTION

Your healing journey begins with a health companion that puts you at the forefront of everything.

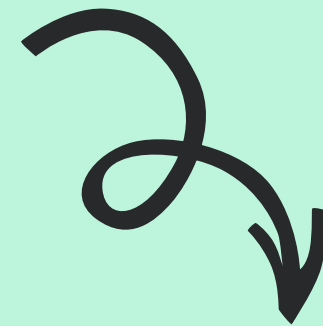

A **health companion** for patients that:

- Summarizes and listens to patient's questions
- Explains in easy terms the diagnostic using the latest medical guidelines
- Informs patient on treatment plan and potential side effects
- Next steps (next analysis, next consultation, monitoring)

USE CASE SCENARIO

Fills EHR
then leaves...

Simple questions

When is my next appointment?
I'm feeling anxious, what can i do?
Which drug should i take after lunch?

Is this medicine linked to my headache?
Why this specific treatment?
How can i avoid these side effects?

More Complex questions
